

THE RED CROSS

Red Cross Home Service workers aren't going to lose sight of any discharged disabled soldiers, according to a new plan being carried out by Lake Division headquarters, American Red Cross. Here's how they took care of one Ohio doughboy.

Homer Andrews, who had been a coal miner, went over the top in a great drive and was gassed. The poison affected his lungs. After six months in a hospital in Europe he was sent back to a hospital in this country, better but not able to go back to the mine. Red Cross hospital workers sent him and address to the After-Care Department, Lake Division. Home Service workers in his home town visited his home, explained his condition to the family, and later persuaded Homer to take a course in vocational training offered by the government. Now he is well on his way to a new field of work where he will be able to earn more money than he did as a miner.

Other boys besides Homer are profiting by the scheme of co-operation that has been worked out between the Red Cross workers of the base hospitals and Home Service workers in the 369 Red Cross chapters in the Lake Division. Red Cross hospital workers scan the admission lists and notify Headquarters when a man who lives in the Lake Division is received at the hospital. This gives the Home Service workers an opportunity to get acquainted with his family and help them get ready for his return. A second notification goes out when the man is discharged. Then the Home Service workers are on hand to assist in preparing compensation claims, and advise about insurance jobs, and the training Uncle Sam is anxious to give every disabled man.

Eleven months since the money was pledged and there are still people in Ohio, Indiana and Kentucky who have not yet paid their subscription to the Second Red Cross War Fund, according to accounting department records at Lake Division Headquarters of the American Red Cross.

Directors of War Fund collections in various Lake Division cities are counting on the subscriptions promised. Of a total pledge of \$14,044,521.78 up to this time only \$13,362,876.34 has been turned in. This leaves \$681,645.44, almost five percent, still unpaid, in the three states.

This means that Ohio, Indiana and Kentucky, which comprise the Lake Division, are fifth on the list of Red Cross divisions, instead of 100 percent paid-up on the War Fund subscription.

Conditions exist overseas which will require the utmost effort of the American Red Cross if the suffering people are relieved. Prompt payment of these outstanding war fund subscrip-

tions will help. First aid for everything that worries you—that's what the Red Cross Home Service means to the overseas soldiers, now in camp and awaiting demobilization in Ohio, Indiana and Kentucky.

Last month, of 35,955 men in five camps in the Lake Division, the Red Cross received 2078 new calls for assistance from men who had never before asked aid. Further help was given to 1885 men who had been aided before.

Government compensation for wounded men and the re-education problems of the disabled caused most of the worries last month, but the situations which the Red Cross has to untangle are diversified. Many times it is a request for aid in interpreting a puzzling bit of law in securing the proper allotment—in locating a lost family. Of the men who applied for help at these camps, 1357 asked for information alone.

Red Cross Victory Notes

The Liberty Bond YOU buy may bring some soldier home.

Pupils of Medina High are busy writing themes on "Why we should buy the Victory Bonds"; a patriotic service at the request of the Woman's Liberty Loan Committee. A number of prizes have been offered by the Liberty Loan Committee and other patrons of the school. The themes are well written, and show an inspiring, youthful patriotism. Prize winners will be announced in this week's Sentinel if the judges complete their work in time.

Red Cross Home Service

First Aid for everything that worries soldiers—may be had at the office of Home Service Headquarters. Information on the new rulings on insurance and proper blanks for decrease; compensation and employment aids.

Miss Wells will make evening appointments for soldiers who are finding it impossible to see her in office hours.

Books and Magazines Needed

Books and Magazines are badly needed to supply the Yankees in Germany, and the American fighting men still in France.

It's a long wait until the boys of the Army of Occupation come home—and the time passes even more slowly for them than for us.

Take all the entertaining books that you can spare to the nearest public library. Put one-cent stamps on last month's magazines and drop them in the nearest post box. Your part is easy. The American Library Association and the United States Postal Service do the hard work in providing that each book and magazine reaches the hands of some restless soldier boy waiting for his orders home.—Lake Division News.

Attention Knitters!

Some of the Auxiliaries having returned part of the yarn supply re-

cently given out, the knitting committee calls for volunteers in completing the quota. Both sock and sweater yarn are contained in the supply, and will be given out on Saturday afternoon, May 10, at the Library rooms.

Sewing Finals

Red Cross Sewing is about completed, a little finishing up and a little gathering in and the veteran actors will ring the curtain down on this great feature of the greatest war that was ever staged.

WORMING BEST CONTROL FOR PEACH BORER

Peach tree borers which attack peach, plum and cherry trees can best be controlled by cutting them out of their burrows in late May or early June according to entomologists at the Ohio Experiment Station. The use of poisonous sprays, repellents, washes, and mechanical barriers have not been effective in experiments to control this pest.

The borers can generally be located by exudations of sawdust-like materials near the base of the trees. The younger borers may also be found in diseased and wounded areas on the upper part of the trunk. There are two species of borers which may be cut out at the same time.

Orchardists point out that it is necessary to treat the tree wounds after the borers are cut out with lime-sulphur solution, Bordeaux mixture to white lead, as these materials help to keep diseases and other insects out of the wounds. Thorough spraying and culture methods in orchards tend to produce fewer areas where the borers can work.

STRAIGHTEN THAT BENT BACK

No need to suffer from that tired, dead ache in your back, that lameness, those distressing urinary disorders. Medina people have found how to get relief. Follow this Medina resident's example.

J. S. Ritter, wagon maker, 433 S. Huntington St., says: "I suffered for a long time with rheumatic pains. I had severe pains across the small of my back and when I stooped over, it seemed as though my back would break. I tried numerous remedies with little relief until one of the men in the shop recommended Doan's Kidney Pills and I bought a box. They helped me from the first and I continued their use until I was in good health. Since then when my kidneys haven't acted right, I have used Doan's and a few doses have set me right." (Statement given December 21, 1911.)

On January 24, 1917, Mr. Ritter said: "I still have the same good opinion of Doan's Kidney Pills. I haven't had any serious trouble with my kidneys in a long time."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ritter had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Catarhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c. F. J. CHENEY & CO., Toledo, O.

Thousands Of Satisfied Users

in city, town and country testify to the wonderful efficiency and economy of the Caloric Pipeless Furnace.

We've a book of remarkable letters written by Caloric owners and not in one is there a word of anything but praise for the Caloric. We'd like to show you the

PIPELESS CALORIC FURNACE
The Original Patented Pipeless Furnace

and have you read some of the letters in this book.

Come in and investigate this furnace that heats through one register. It's a wonder! One happy owner says he can get 70 degrees warmer by 7 A. M. and that his fuel bill is a third less than formerly. How would that suit you? Remember, the Caloric is guaranteed to do every thing we say—must do it or no one is asked to buy it. COME IN We Can Convince You.

THE EUCLID SQUARE GARAGE CO.
EAST 13th STREET—NORTH OF EUCLID
CLEVELAND

HERE is the practical one-man tractor for your farm. Easy to control, start, stop or reverse, all with one lever. Special friction transmission, the greatest feature ever built into a tractor. Less gears, fewer parts, less trouble, less chance for breakage and lower upkeep cost. Especially designed manifold, burns either kerosene or gasoline. Switch from one fuel to the other at any time without carburetor changes. Standard four-wheel construction, heavy duty, four cylinder Waukesha tractor motor. Highest standard of accessories, Dixie high tension magneto with impulse starter, Kingston carburetor, Perflex radiator and S. K. F. bearings. Ten years of constantly making good are back of the

Heider
Made and Sold by Rock Island Plow Co.

The Model "D" 9-16 H. P. is a two-plow tractor and is built so you can attach the Rock Island No. 9 power lift two-bottom tractor plow directly to the tractor. This plow is especially built for the Heider Model "D" Tractor. Your hand operates the tractor while your foot raises or lowers the plows by the automatic power lift.

This gives you tractor and plows in one complete unit. Easier to handle than the ordinary

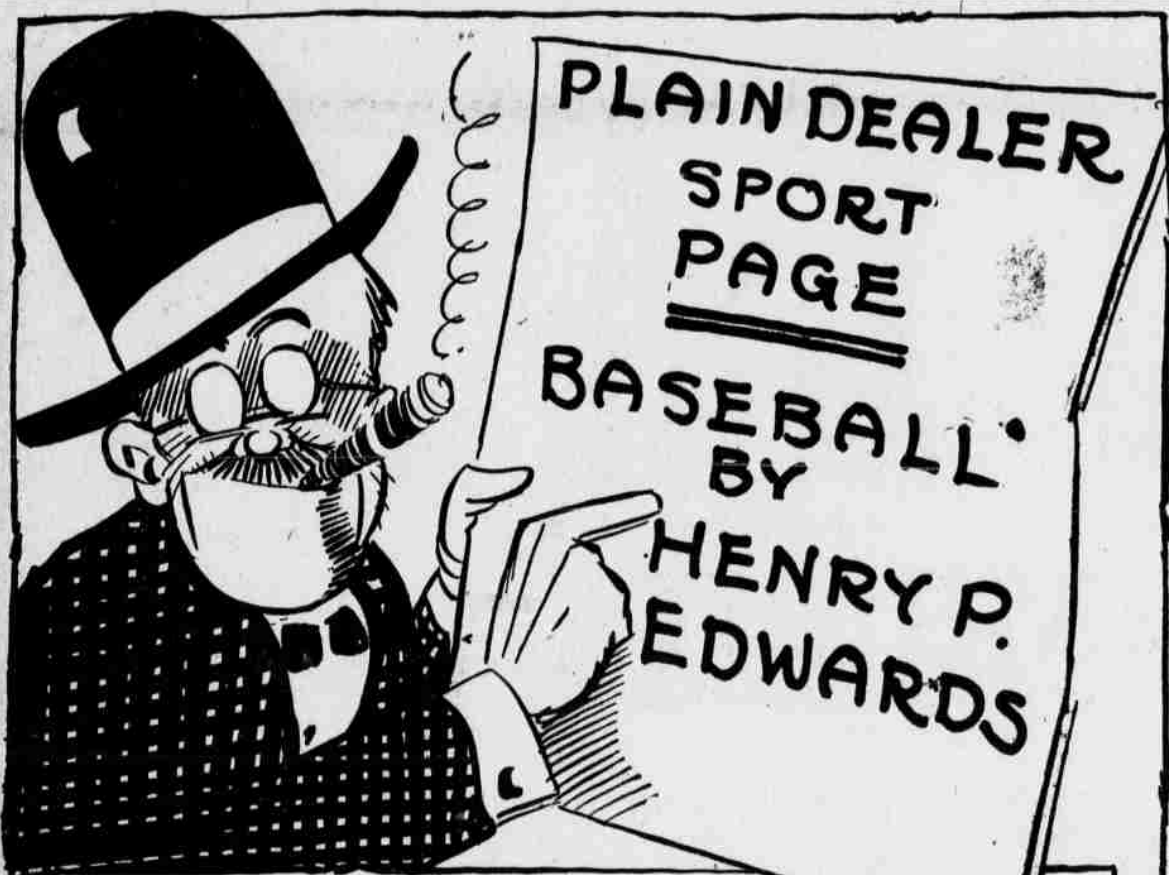

horse plow—enables you to plow up to the fences and into the corners. You plow all the field.

Heider Model "D" is also equipped with a standard drawbar for pulling other tractor plows, discs, hay tools, wagons, spreaders, binders, mowers, etc. Has power enough on the belt to run smaller sized grain separators, silo fillers, corn shellers, etc. Will pump water, saw wood and run the cream separator or washing machine.
